

Knife Characteristics

The original **Piranta** is an all stainless steel knife with an open frame construction, frame lock, and dual thumb studs. The steel has a high resistance to rust, and the open frame allows for easy and efficient cleaning.

It has an open length of 6 $\frac{3}{4}$ ", and 3 $\frac{3}{4}$ " closed. (#60XT Blade = 2 $\frac{3}{4}$ " overall length)
It weighs 2.3 ounces.

The **Piranta-Z** is made of high impact, military grade Zytel plastic with stainless steel fitments and actions, a liner lock, and dual thumb studs. The knife is lighter and has a slightly larger handle than that of the original.

It has an open length of 7 $\frac{1}{4}$ ", and 4 $\frac{1}{4}$ " closed. (#60XT Blade = 2 $\frac{3}{4}$ " overall length)
It weighs 2 ounces.

The **Piranta Edge** is made of ABS plastic and is bright orange. It is made of stainless steel fitments and actions, has a liner lock, and dual thumb studs.

It has an open length of 7 $\frac{1}{4}$ ", and 4 $\frac{1}{4}$ " closed. (#60XT Blade = 2 $\frac{3}{4}$ " overall length)
It weighs 2 ounces.

The **Piranta Whitetail, Elk & Big Horn** is made of 6061-T6 aluminum alloy with pistol grip cross-hatch pattern and scrimshaw-style laser engraved inlay. It has an open frame construction, liner lock, dual thumb studs for one hand opening, and removable pocket clip.

It has an open length of 7 $\frac{3}{8}$ ", and 4 $\frac{1}{2}$ " closed. (#60XT Blade = 2 $\frac{3}{4}$ " overall length)
It weighs 2.2 ounces.

The **Tracer22** is made of aluminum and accommodates scalpel blades #20 thru #25 as well as the #60. It has an open frame construction, liner lock, and dual thumb studs for one hand opening. Its use of smaller blades makes detail caping and cutting work safer, cleaner and more accurate.

It has an open length of 6", and 3 $\frac{3}{4}$ " closed. (#22XT Blade = 2 $\frac{1}{4}$ " overall length)
It weighs 1.4 ounces.

The **Predator Timberwolf, Grizzly & Cougar** is made of rugged, stain resistant ABS plastic with scrimshaw style laser engraved, Timber Wolf, Grizzly Bear or Cougar, art. As with all the Piranta Knives, the mechanisms and fitment are constructed of stainless steel.

It has an open length of 7", and 4 $\frac{1}{4}$ " closed. (#60XT Blade = 2 $\frac{3}{4}$ " overall length)
It weighs 2 ounces.

The **Baracuta Edge & Z** is made of high impact, military grade Zytel plastic, with stainless steel fitments and actions, liner lock, and dual thumb studs. This knife comes with either gray rubber grip inserts or orange rubber grip inserts.

It has an open length of 11", and 6" closed. (HS127XT Blade = 5" overall length)
It weighs 3 ounces.

The **Baracuta-Blaze** is made of high impact, military grade Zytel plastic in bright orange, with stainless steel fitments and actions, liner lock, and dual thumb studs.

It has an open length of 10 $\frac{3}{8}$ ", and is 6" closed (HS115XT Blade = 4 $\frac{3}{8}$ " overall length)
It weighs 3 ounces.
